1 Introduction

MySQL Manager is a web based MySQL client that allows you to create and manipulate a maximum of two MySQL databases. MySQL Manager is designed for advanced users. Knowledge of relational databases and SQL is required in order to use this application efficiently. MySQL Manager is best used for creating databases and tables. For populating a database, you should consider using a script (PHP, ColdFusion) or CGI. MySQL Manager builds SQL statements from the various options that you select. This is the reason for the "Build SQL Query" button. Viewing the Query gives you an opportunity to review the query before running it. Clicking the "Run SQL Query" button submits the query to the SQL server. **Please be advised** that this application replaces the Database Manager application currently active.

TO LAUNCH MYSQL MANAGER:

- Click **MySQL Manager icon**.

The application opens in a new window.

Support Feedback

MySQL Manager

MySQL Database Manager

Database Manager

You can use this tool to manage your existing MySQL Databases, change your MySQL Database password, create new and remove an existing MySQL Database

Users and Databases List

+ Add Database User

User Name	DB Type	DB Host	Available Databases

Cancel Apply

Login Settings

Database Username: _____

Enter Password:

Login

Yes, I want to change the password for selected user.

Enter NEW Password:

Confirm NEW Password:

Cancel Apply

1.1 Navigation

- **MySQL Database Manager:** on this page you can manage users as well as databases.
- **Support:** opens online help files for Manage MS SQL Database in a new window
- **Feedback:** allows you to send feedback concerning the application

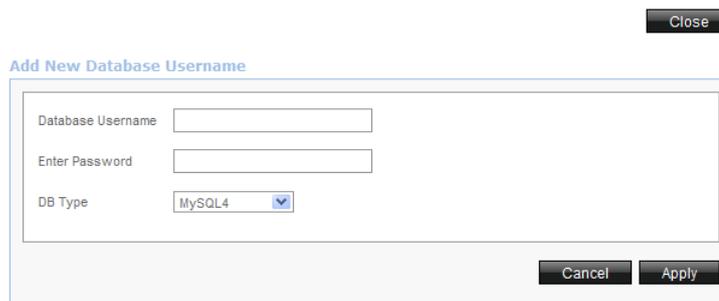

2 MySQL Database Manager

2.1 Add User

Allows you to add new user to the database.

TO ADD USER:

1. Click **Add Database User**.
2. Complete the following:

Close

Add New Database Username

Database Username

Enter Password

DB Type

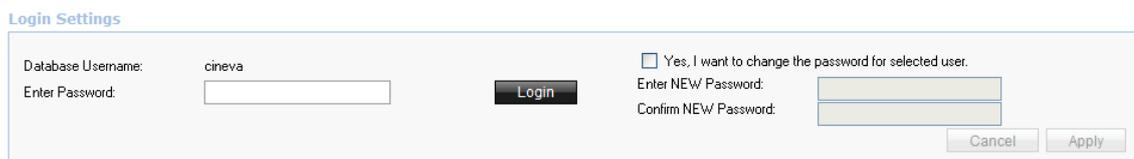

Cancel Apply

- **Database Username** – enter a username for database.
 - **Enter Password** – enter a password.
 - **DB Type** – choose a database type from the drop down menu.
3. Click **Apply**.

2.2 Change the password of a user

TO CHANGE PASSWORD:

1. Click on a user from the list of users.
2. Check **Yes, I want to change the password for selected user**.
3. Complete the following:

Login Settings

Database Username: cineva

Enter Password:

Login

Yes, I want to change the password for selected user.

Enter NEW Password:

Confirm NEW Password:

Cancel Apply

- **Enter NEW Password** – enter new password.
 - **Confirm NEW Password** – re-enter new password.
4. Click **Apply**.

2.3 Delete a user

TO DELETE USER:

1. Click **Delete icon**.

Users and Databases List

⊕ Add Database User

User Name	DB Type	DB Host	Available Databases
cineva	MySQL4	sqlc1b.megasqlservers.com	

Changes Pending

2. Click **Apply**.

2.4 Add a database

Note: You cannot add a database without adding a user first.

To ADD DATABASE:

1. Click on a user from the list of users.

Database Manager

You can use this tool to manage your existing MySQL Databases, change your MySQL Database password, create new and remove an existing MySQL Database

Users and Databases List

⊕ Add Database User

User Name	DB Type	DB Host	Available Databases
cineva	MySQL4	sqlc1b.megasqlservers.com	

Login Settings

Database Username: cineva Yes, I want to change the password for selected user.

Enter Password: Enter NEW Password:

Confirm NEW Password:

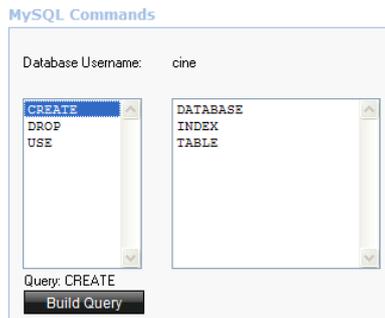

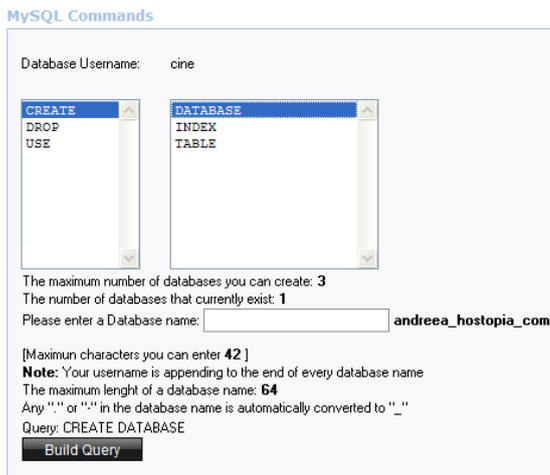

2. Enter password.
3. Click **Login**.

MySQL Commands

Database Username: cineva

CREATE
DROP
USE

Query: CREATE DATABASE

4. Select **CREATE**.5. Select **DATABASE**.

- **Please enter a Database name** – enter a name for your database.

6. Click **Build Query**.7. Click **Run Query**.8. Click **Logout**.

2.5 Manage database(s)

Once a database has been added you may perform several actions within this application.

2.5.1 Use database

1. Login in with the user's credentials.
2. Click **USE**.
3. Select the database you wish to use from the list of databases.
4. Click **Build Query**.
5. Click **Run Query**.

MySQL Commands

Database Username: cine

Database Use: rau_andreea_hostopia_com

ALTER	rau_andreea_hostopia_c
CREATE	
DELETE	
DESC	
DROP	
DUMP
